

AS30e

Battery-powered rammer

The emission-free specialist for pipe spandrels

With the battery tamper, the operator works completely free of emissions. The battery-powered rammer is not only an asset when compacting soil in trenches and city centres, but also relieves the operator and the environment on every construction site. The AS30e is particularly suitable for compacting pipe gussets and very narrow trenches, among other classic applications. One battery charge is sufficient to do all the work of an average working day. The battery can be changed without tools in just a few easy steps and can be used for a wide range of other Wacker Neuson construction equipment.

Highlights

- Maintenance-free electric motor
- Low energy costs
- No exhaust emissions
- Starts with a push of a button

Electrical - Output Details

■ One battery for all products

Technical Data

Nominal current	26.30 A	
Nominal voltage	51.0 V	
Nominal power [P]	1.34 KW	
■ Mechanical - Output Details		
Number of blows	810.0 1/min	
Area capacity	99.0 m2/h	
Forward Running	11.0 m/min	
Power of impact	10.0 kN	
Mechanical Details		
Length	620.0 mm	
Length Ramming Shoe	296.0 mm	
Width	361.0 mm	
Width Ramming Shoe	150.0 mm	

1,046.0 mm

32.40 kg

Operating weight	41.7 kg
Stroke at tamper	40.0 mm
Motor	
Motor type	Asynchronous motor
Environment Data	
Degree of protection	IP23D
Storage temperature range	-30 - 50 °C
Operating temperature range	- 45
Sound power LWA, guaranteed	108.0 dB(A)
Sound power LWA (Standard)	EN 500-4
HAV summation (average value)	7.5 m/s2
HAV summation (Standard)	EN 500-4
Operating Fluids	
Lubricant	Gadus S3 V220C 2
Lubrication intervall	50.0 h
